Waiter and barman in Minho traditional style restaurant.

ACADEMIC EDUCATION

UNDERGRADUATE DEGREE IN COMPUTER SCIENCE
University of Minho
First cycle degree with a study plan based on Mathematics (Calculus, Discrete Mathematics, Algebras, Computational Theory of Numbers, etc.) and Informatics (Object Oriented Programming, Algorithmic Laboratory, Compilers and Language Processors, etc.).

Relevant Projects

ImOObiliária – Real estate management program developed in Java.

Red Spot – Multiplayer game made for concurrency programming with the client side developed in Java (also with Processing) and server side developed in Erlang.

Tagging source code in StackOverflow messages – Untagged code identifier program developed in Python and C/FLEX.

Crosswords – Crosswords game with in-play solution check developed in C.

GRADUATED IN SCIENCES AND TECHNOLOGY
Sá de Miranda Lyceum
High school graduation with a final average of 14 values.

SKILLS

My student-worker status has gave me a good task and deadline management skills also providing me good adaptability to generic informatics tools and programming languages having resourcefulness with urging necessities.

My waiter and barman experience instructed me with great team work ability and oral communication in various natural languages, being totally comfortable with Portuguese (native) and English with moderate knowledge of French and Spanish.
